G.S.M. REPORT

1-8-51

Our biggest worry in this past month has been Census Returns but after a lot of prodding and paying these have all be completed and sent off to L.A.

The pack has been carrying on in the same spirit and at the moment have no equipment requirements.

The troop has lost two beds as from last Friday because one of the lads wished to go with his cousins troop in Parcoo Vale and his pal Noel Meadon wished to accompany him.

I wish now to inform the committee of my resignation which has come about by my inability to give as much time to the scouting movement as I would like. The matter has been discussed with the DC and I have approached Mr Briggs about taking over the position of T.M. and as he is willing to accept the position will take over

from me as soon as possible subject
of course to the committee approval.
Mr. Biggs has already
attended one Troop meeting and has
requested that I accompany him for
another two weeks when he will
be ready to take over.

W. Collins
