

Troop report.

During the past month the troop has worked well and there are several bids ready for investiture which will take place in the near future and will be organized by the Court of Honour. We have also increased our number by two bringing the total to 18 boys.

With our patrol competition coming into its own there seems to be an atmosphere of keenness about the troop which augurs well for our future.

There has been two district meetings this month the first being the Cruzac Day Service and the second B.P.'s Commemoration Service both held in Queens Park neither being particularly well attended, but by comparison with other troops very good.
